Login to eLearning

(this is where you start if you went straight to <https://sls.etrainu.com/training>)

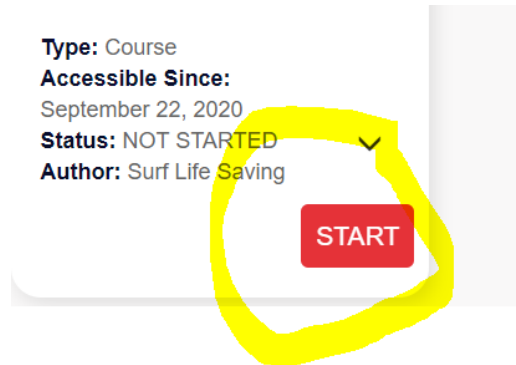

Click on 'My Training'

The course Skills Maintenance 2020/21 Bronze Medallion Theory or Skills Maintenance 2020/21 Surf Rescue Certificate Theory should already be in your training list.

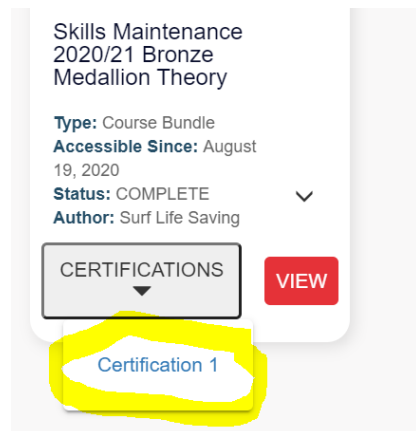

Click on 'Start' and do each of the modules.

Some members have experienced trouble with the Online Radio course, not starting the second module, you might need to try a different web browser.

Once all modules are complete, the certificate should be emailed to you, or you can access it by clicking on 'certification 1'

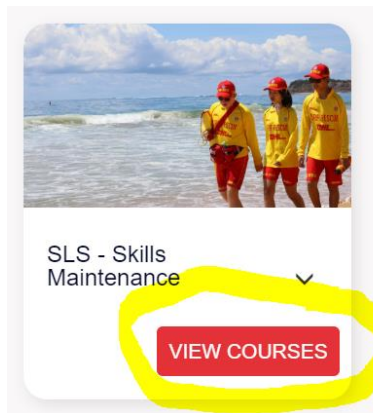

Please print a copy of the certificate, or save it to your phone or tablet, or take a photo of it with your phone and bring that. We just need to see that you have completed the course before you can start your practical assessment.

If the course hasn't automatically been added to your 'My Training' list, you will need to enrol in it first:

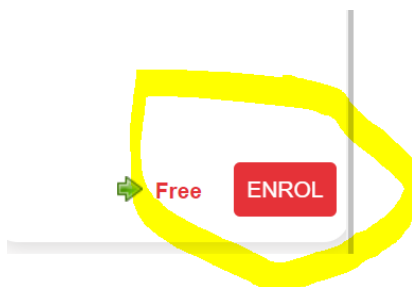

Click on Training Library

Click on SLS – Skills Maintenance > View Courses

Click on enrol,

This will add the course to your My Training list. Go back to the steps above, clicking on 'My Training'.
